

Landing Page CRO Summary by Alexis Cottray

First Impression

- **Positives:** Dark version looks more professional than the white version.
 - **Missing:**
 - Trust elements upfront (Google reviews, Trustpilot, client logos).
 - Stronger hero section visuals (illustrations, Lotties, or animations).
 - Clear security indicators and trust badges.
 - Social proof (testimonial slider or reviews).
 - Emotional appeal or unique differentiator.
-

Layout

- **Current issue:** Only 3 sections—far too short for cold traffic.
 - **Recommendations:**
 - Add benefit-focused sections (“Why choose us?”, “How it works”, etc.).
 - Include client testimonials and case studies.
 - Add a **badass FAQ** at the end.
 - End with a **clear CTA section** (not hidden or vague).
 - On mobile, improve text alignment and benefit display.
-

Call to Action (CTA) Buttons

- **Positives:** Functional structure is there (1-2-3 onboarding process).
- **Improvements:**

- Final CTA should be strong (e.g. “Go Pro”, not “Save”).
 - Avoid multiple CTA buttons in the same card—streamline user flow.
 - Consider limiting free usage (e.g. 1 quote per cookie) to drive urgency.
 - Add a vertical sticky widget for lead gen (free e-book, etc.).
-

User Interface (UI)

- **Positives:** Clean and functional base design.
 - **Recommendations:**
 - Inject more brand personality: visuals, characters, micro-interactions.
 - Consider animated illustrations or Lotties to enhance visual engagement.
 - Improve design of forms and error states (e.g. confusing error placement).
-

User Experience (UX)

- **Positives:**
 - Clear 1-2-3 onboarding process.
 - Structured flow works for users who land from internal tools.
 - **Improvements:**
 - Consider a live or automatic chat for better onboarding support.
 - Clarify login vs. subscription. "My Quotes" should be for logged-in users only.
 - Improve segmentation: show different content for new vs. returning users.
-

Value Proposition

- **Major Weakness:** Currently very weak.
 - **Missing:**
 - Clear differentiator from competitors.
 - Evidence-based value (e.g. data-backed claims, user stats).
 - Benefits clearly communicated in each section.
 - “Why us?” section is absent or too vague.
-

7P Marketing Strategy

- **Strengths:**
 - "Process" is partially addressed (AI explanation).
 - Pricing table exists (but lacks payment icons).
 - **Weaknesses:**
 - No “Physical Evidence”: no case studies, reviews, logos, results.
 - No clear “People” (team, founder credibility).
 - No “Promotion” hook (e.g. offer, campaign, lead magnet).
 - No strong product positioning.
 - Add marketing triggers like a free e-book, lead capture, video demo, etc.
-

Psychological Strategy

- **Lowest scoring area.**
- **Missing:**
 - **Reciprocity:** no freebie in exchange for email.
 - **Authority:** no figures, stats, awards, or thought leadership.

- **Social Proof:** no real testimonials, logos, or peer validation.
- **Scarcity/Availability:** could use limitation like “1 free quote per user”.

Overall Scoring Summary

Category	Score	Notes
Psychological Strategy	● Very Low	Missing core persuasion principles.
Value Proposition	● Very Low	Not compelling or clearly defined.
Layout	● Medium	Too short, needs structural expansion.
Marketing Strategy	● Medium	Missing trust elements & lead gen.
First Impression	● Medium	Lacks strong visual, emotional impact.
User Interface (UI)	● Good	Clean, but could use more life.
Call to Action (CTA)	● Good	Functional but needs stronger hooks.
User Experience (UX)	● Good	Clear onboarding flow works well.

Final Recommendations

To improve conversion rates, you should:

1. **Expand layout:** Add sections (benefits, trust, testimonials, FAQ).
2. **Strengthen hero section:** Add visual illustration or animation + trust elements.
3. **Clarify CTAs:** Add strong, clear, conversion-focused CTAs throughout.
4. **Build trust:** Add logos, client quotes, ratings, and social proof.
5. **Enhance UX:** Clarify login flow, add contextual chat, and fix form issues.
6. **Leverage psychological triggers:** Use scarcity, authority, reciprocity, and social proof.

7. **Implement 7P strategy:** Address missing “people”, “physical evidence”, and “promotion”.
